

STUFF COSTS MONEY

Next time you go to the store, ask your parents if you can take a few dollars you earned. When you get to the store, locate items within your dollar range. This will give you an idea of how far your dollars will go. Take into account the quality and quantity of an item. How hard did you have to work to earn that dollar? Is your purchase worth the expense? And don't forget to make sure you have enough to pay for tax when you get to the cashier.
