Tips for Counting Change

Parents, next time you are at the store and paying with cash, you can make a game of counting change. Have your child try and figure the change you should get before the cash register gives you an answer. Then, once you get your change, have your child count it out and double-check you received the correct change.

Formula for Checking Change

Change + Bill = What you paid
So if the bill was \$8 and you gave the cashier a \$10, then you got \$2 in change.

You can check your change using the formula. It would look like: $\$2 + \$8 = \$10$

This sounds really simple, but doing this simple check will help you get better at counting your change and will often catch mistakes made by the cashier.

Tips

Manage Your Money

Managing your money can be an important skill in life. A lot of people do well in their job and make a lot of money, but still, end up broke. Learning how to stay on a budget, save money, and invest wisely can help you to stay financially secure through life. Heart O' Texas can help you save, we pay cash for good grades. Stop by Heart O' Texas and ask us any money-saving questions.
